

January 2020

Dear Colleague,

Teacher of Physics

Thank you for your interest in this post. We are looking to appoint a new colleague who is well-qualified and able to teach physics at A-level and science at GCSE.

Science is extremely popular at A-level with big numbers in physics, biology and chemistry as well as students studying applied science. A-level physics is in great health and several students have gone on to study it at university in recent years. At GCSE the department achieves fantastic results and last year we achieved ALPS 1 which means that our value added in science was the highest in the country. Science is a hugely successful part of the school and we hope that you will be able to help it become stronger still.

Balcarras is an excellent place to teach. We have friendly staff, pupils who are keen to learn and supportive parents. We work in attractive buildings, superbly-equipped, on a beautiful site. We are both a teaching school and a maths hub, so professional development is one of our major strengths. The post is open to both experienced and newly-qualified teachers and you will be assured of an excellent induction programme if appointed.

I hope that having read all the details and perused our website you will be keen to apply. Please submit your application by Monday January 20th 2020, at **9am**. Interviews will then take place shortly afterwards.

I look forward very much to hearing from you.

Yours sincerely,

Headteacher
