

SUBJECT		YEAR	TERM
Creative iMedia		11	1
UNIT			
R096 – Animation with Audio			
INTENT			
PRIOR LEARNING (TOPIC) – This unit draws upon some content from R094.			
<p>This is the second of the two major projects pupils will complete as part of the whole course and is worth 35% of the overall grade. The set assignment changes each year, however, always includes creating a short digital animation with an accompanying soundtrack.</p> <p>The marks for the unit are fairly evenly split between the actual animation itself and the write-up around it. Successful pupils will not only have a good eye for design and command of the software we use, but will also be able to explain and justify their design decisions.</p>			
FUTURE LEARNING (TOPIC): R093			
IMPLEMENTATION		IMPACT	
Throughout the unit pupils will cover: <ul style="list-style-type: none">Fundamental principles of animation, including tweens, key frames, onion skinning and squash & stretch.How to produce professional design documents for a graphic design project.Using professional level animation software, such as Blender.	Assessment: This work is done under controlled conditions. As such, pupils will not receive formal marks until its completion. At this point, pupils will be given a mark out of 70, which will go towards their overall total for the course. Pupils will also receive the equivalent grade from Pass, Merit, Distinction or Distinction *.		
HOW CAN PARENTS HELP AT HOME?			
<p>This work is done under controlled conditions, as such pupils should not be completing any work which will go towards their grade at home. Blender is a free piece of software though and supporting your child by downloading this at home and encouraging them to seek out tutorials can really help.</p>			
HELPFUL READING/FURTHER DISCUSSION			
READING/EXTRA-LEARNING <p>There are an enormous number of online courses and tutorials to help pupils develop their graphic design skills further.</p> <p>Visit the Next Steps section of the Computing department’s Firefly page for more details.</p>	CAREERS <p>The skills learnt in this unit lead perfectly into a wide range of careers including graphic design, web development and advertising.</p>	WIDER SKILLS <p>Digital Literacy Literacy Creative Thinking Resilience</p>	
VOCABULARY			
Keyframe, Tween, Squash & Stretch, Storyboard, Materials, MP4
