How can parents help at home?		
One of the most helpful ways that parents can help is through helping pupils to learn vocabulary. It doesn't matter if you don't know any Spanish yourself. Encourage your child to be 'active' in the learning and not 'passive' i.e. they should write the words down or speak them out several times or even record themselves. Parents can then test them by saying the English and the child either has to spell it out or write it down. YouTube is also a great resource for hearing and practising vocabulary.
