

Subject	Year	Term
Psychology	12	2
Topic		
Psychopathology (Unit 1 – Introductory topics in psychology)		
Content (Intent)		
Prior Learning (Topic)		
<p>Psychopathology builds on the knowledge acquired through the study of Approaches. In this unit students will apply three of the main approaches to the explanation and treatment of three psychological conditions – phobia, OCD and depression.</p> <ul style="list-style-type: none"> • Phobia – behaviourism (classical/operant conditioning, systematic desensitisation) • OCD – bio (genetics, neurochemistry, neuro-structure, drug treatments) • Depression – cognitive (schema, biased thinking, CBT) 		
Future Learning (Topic)		
<ul style="list-style-type: none"> • Research methods – evaluating studies will further consolidate/add context for the study of research methods. • Schizophrenia – concepts of diagnosis, explanation, and treatment. 		
How will knowledge and skills be taught? (Implementation)	How will your understanding be assessed & recorded (Impact)	
<p>This topic will involve a large array of pedagogy and include, but not limited to:</p> <ul style="list-style-type: none"> • Teacher led lesson content • Group and independent quizzes/activities • Analysis of patient case study • Independent research • Seminar style discussions 	<p>Exam style questions/essays marked against the exam criteria with written and verbal feedback. Homework - Marked and feedback given. Verbal responses. Individual and class feedback</p>	
How can parents help at home?		
<p>Discussing the ideas and content at home, especially focusing on incorporating the key psychological vocabulary into conversations. Watch and discuss the videos on this section for this topic on the VLE. Encourage students to revise and consolidate their lesson notes regularly and engage in disciplinary reading (see reading list below).</p>		
Helpful further reading/discussion
