

A-Level Progress & Attainment

We are proud of the opportunities we offer, based around an exciting range of courses, excellent teaching and an atmosphere of enjoyment and collaboration. This combination, along with outstanding results at A-level, has led Ofsted to judge that we are one of the best sixth forms in the country. In November 2020 we were named The Sunday Times Southwest State School of the Decade in recognition of our superb academic performance over many years. It is not just in terms of raw results that the sixth form excels. Over the last three years we have achieved the highest A-level value added for any state school in Gloucestershire and nationally we are in the top 2% of providers.

Dominic Burke
Head teacher

A-Level Progress & Attainment

Darren Leatherbarrow
Head of Sixth Form

In recent years, the academic progress made by our sixth form students, and the level of academic attainment they have achieved, has been nothing short of outstanding in achievement and consistency. This is testament to the excellent quality of the teaching and learning support they receive from the teaching staff at Balcarras, the excellent quality of the learning environment available in the Sixth Form at Balcarras, and the fantastic pastoral support – all of which combine to create a vibrant post-16 community, and an exciting and supportive learning environment in which progress and success is celebrated. The following pages will offer some insight into the outstanding academic success our students demonstrate, year after year, and also our determination to improve our provision and student outcomes each and every year.
