

Metacognition in Teaching

Secondary, NQTs and RQTs

Tuesday 19th January 2021 – 16:00 – 17:30 (Virtual event)

'Metacognition is thinking about one's thinking. More precisely, it refers to the processes used to plan, monitor, and assess one's understanding and performance. Metacognition includes a critical awareness of a) one's thinking and learning and b) oneself as a thinker and learner' (Vanderbilt University, 2020).

This session is appropriate for NQTs and RTQs (any teacher in their 2nd-5th year of teaching). It will explore metacognitive techniques which assist students to transfer or adapt their learning to new contexts and tasks. Metacognition is critical for the learning process. It's teaching the why, not just the how and helps students to be active readers and critical thinkers.

If you would like to book a place for you or your colleagues please contact Jo Newman. Her email address is: jmn@balcarras.gloucs.sch.uk or visit:
